## Year One in the Books

**L**azarus Manufacturing, Inc. has recently celebrated its first anniversary in business. After a very successful first year, the sales team is already hard at work on projects for the year ahead. Lazarus Manufacturing, Inc. President Eric Lazarus notes, "After a very successful first year, we're really looking forward to providing even greater customer service in the future."

## Heimtextil

**I**n January, Eric and Harvey Lazarus attended the Heimtextil international trade show in Frankfurt, Germany. The pair walked the show floor, finding new fabrics for clients as well as new, and lower priced, fabric sources. Do you need something special for your project? Ask us, we can get it for you.

## Reaching Across America

**T**he reach of Lazarus Manufacturing, Inc. extends way beyond its base of operations in sunny South Florida. In February, Lazarus Manufacturing, Inc. worked with Diamond Resorts International to create a model room display for Diamond Resorts International's Ka'anapali Beach Club property in Hawaii. Lazarus Manufacturing, Inc. set up the model room with their window treatment, consisting of an exquisite sheer and over-drapery. The client was "very pleased" with the result.

## Prints, Sheers & Wovens, oh my...

**W**e not only manufacture everything in South Florida, but we can also provide the fabric you require. Just call 1-888-BEDSPREAD for more details.

## Samelson Fabrics Featured

"I have worked with Samelson Fabrics for over 20 years and their products fit the needs of our customers" says Eric Lazarus. "In addition, they actually maintain an inventory on the items they sell, not like most converters today". You will find all of these prints on our website at [www.lazarusmanufacturing.com](http://www.lazarusmanufacturing.com) in the products section. If you don't need prints, we have wovens, solids, sheers, textures and pretty much every type of fabric made exclusively for the hospitality market.
